WHY CODE-HELP?

Making learning easier and more convenient for you.

Data Structure

Data structures are the problem-solving pillars of coding. Learn all the foundational knowledge about all of the popular data structure that you need, to be well-versed in interviews.

Placement Preparation

Ace the placement interviews by being knowledgeable in all well-known data structures, popular problem-solving methods, and core computer sciences.

Hand Picked Question

Get access to hand-picked coding interview questions across categories & difficulty levels that will prepare you for every interview you would encounter.

Curated Content

Learn in-depth conceptual overviews, how to approach an algorithm, how to implement it & how to optimize it.

Learn from the best

Get access to lectures and get mentored by one of the best in the market, Love Babbar.

Learn Something new

Learn new concepts daily, increase your productivity & reach your full potential.

Course @dot Batch

₹4500 ~~₹6999~~ **42% off**

This advertisement features a man's portrait on the right. The top left contains a row of four circular icons: a green leaf, a lowercase 'ex', a blue atom symbol, and a green 'JS' in a hexagon. The text 'WEB DEVELOPMENT' is in yellow, and 'BOOTCAMP' is in white on a black background. The course name is in black, and the price information is at the bottom with a blue '42% off' badge.

WHAT STUDENT SAYS

Students Recent Reviews

Daniel Clifford
Verified Graduate

I received a job offer mid-course, and the subjects I learned were current, if not more so, in the company I joined. I honestly feel I got every penny's worth.

" I was an EMT for many years before I joined the bootcamp. I've been looking to make a transition and have heard some people who had an amazing experience here. I signed up for the free intro course and found it incredibly fun! I enrolled shortly thereafter. The next 12 weeks was the best - and most grueling - time of my life. Since completing the course, I've successfully switched careers, working as a Software Engineer at a VR startup. "

Jonathan Walters
Verified Graduate

The team was very supportive and kept me motivated

" I started as a total newbie with virtually no coding skills. I now work as a mobile engineer for a big company. This was one of the best investments I've made in myself. "

Kira Whittle
Verified Graduate

Such a life-changing experience. Highly recommended!

" Before joining the bootcamp, I've never written a line of code. I needed some structure from professionals who can help me learn programming step by step. I was encouraged to enroll by a former student of theirs who can only say

program. The entire curriculum and staff did not disappoint. They were very hands-on and I never had to wait long for assistance. The agile team project, in particular, was outstanding. It took my learning to the next level in a way that no tutorial could ever have. In fact, I've often referred to it during interviews as an example of my development experience. It certainly helped me land a job as a full-stack developer after receiving multiple offers. 100% recommend! "

Jeanette Harmon
Verified Graduate

An overall wonderful and rewarding experience

" Thank you for the wonderful experience! I now have a job I really enjoy, and make a good living while doing something I love. "

Patrick Abrahms
Verified Graduate

Awesome teaching support from TAs who did the bootcamp themselves. Getting guidance from them and learning from their experiences was easy.

" The staff seem genuinely concerned about my progress which I find really refreshing. The program gave me the confidence necessary to be able to go out in the world and present myself as a capable junior developer. The standard is above the rest. You will get the personal attention you need from an incredible community of smart and amazing people. "

Courses Section

Welcome to @supreme-dev Family

Data Structures & Algorithms BootCamp @Supreme-2.0

A comprehensive program that covers the fundamentals of data structures and algorithms. It includes lectures and exercises to help students design and implement efficient solutions. This course is suitable for beginners and experienced programmers and aims to prepare students for technical interviews and placement exams.

4.9 ★★★★★

🌐 Hindi 🎥 100+ Lectures

₹3600 ~~₹7000~~

Buy Now

This Course Includes

- ▶ No Pre-requisite Required
- ▶ 170+ hours On-Demand Video
- ▶ 400+ Coding Questions (asked by Top Companies)
- ▶ Expert Sessions by Sr .SDE, StartUp Devs, Vps, Recruiters etc.
- ▶ Live Resume & Interview Preparation
- ▶ DSA - Extreme Beginner to Advanced
- ▶ with Doubt Assistance

What you will learn?

- ✓ FlowChart & PseudoCode
- ✓ Pattern printing
- ✓ Linked List
- ✓ Stack & Queues
- ✓ Trees
- ✓ Arrays - 1D & 2D
- ✓ Hashing & Tries
- ✓ Searching Algorithms
- ✓ FlowChart & PseudoCode
- ✓ Sorting Algorithms
- ✓ Greedy Algorithms
- ✓ FlowChart & PseudoCode

- ✓ FlowChart & PseudoCode
- ✓ Time & Space Complexity of Recursive Algorithms
- ✓ Variables & DataTypes in C++
- ✓ Object Oriented Programming Concepts
- ✓ Operators, Conditionals & Loops
- ✓ Function & in-depth Knowledge of flow
- ✓ Char Arrays & Strings
- ✓ Sliding Window Problems
- ✓ Basic Maths & Pointers
- ✓ Bit Manipulation
- ✓ Recursion & Backtracking
- ✓ Divide & Conquer Technique

Basic Details

Mode of the Course	LIVE + Recordings
No. Of Lectures	60 LIVE lectures + Recordings [HomeWork Solutions]
Class Recording Provided	Class Recording Provided
Doubt Classes	Yes [HD Quality]
Course Validity	20 Doubt Sessions
Programming Language Used:	2 Years
Class starts on	C++
Class Schedule	21st August, 2023
Class Timings	LIVE [Monday, Wednesday, Sunday] + Recorded [Friday] 9pm - 11pm
